ABOUT ME

As a software developer, I focus on the design, implementation, and testing of software applications. I thrive on challenges and possess strong algorithmic thinking and problem-solving skills. Additionally, I am dedicated to continuous learning and professional development in the field of software engineering.

EXPERIENCE

Full Stack Developer

Feb 2025 – Present

RedRiver Solutions - Full-time

Hungary

- Contribute to the end-to-end design, implementation, and development of ERP systems, with a focus on scalable and maintainable architecture.
- Work on full-stack solutions using Angular (frontend) and Spring Boot (backend), ensuring seamless client-server communication.
- Implement EJS templating on both server and client sides to streamline dynamic UI rendering and maintain consistency across components.

Software Developer

Aug 2024 – Feb 2025

Bramcke Hungary - Internship

Hungary

- Engagement in the development of ERP systems, with a focus on invoicing functions for various countries, using C#.
- Customization and optimization of invoicing processes to comply with the regulatory and business requirements of each country.

Software Developer

June 2023 – May 2024

See-Game Kft. - Part-time

Hungary

- Active participation in designing new systems and successfully integrating them into the existing application infrastructure.
- Refinement, optimization, and maintenance of existing code in server-side and client-side applications.
- Managing complex database design projects, including the development of new data structures and ensuring efficient storage of existing data.

EDUCATION

University of Debrecen

Debrecen, Hungary

BSc in Computer Science — Grade: Excellent

Sept 2022 – Jun 2025

SKILLS

Languages: Java, C#, Python, JavaScript, TypeScript, Lua, Matlab, SQL (MySQL, PostgreSQL, MS SQL, PL/SQL, SQLite), HTML/CSS/SCSS

Frameworks: Angular, React, Express-Node.js, Flask, Django, Spring Boot, JHipster

Developer Tools: Git, Docker, GitHub, VS Code, Visual Studio, PyCharm, IntelliJ, EJS

Others: REST, JWT, Windows-Linux Server, Jira, Confluence, MS Office, B driving license

CERTIFICATIONS

- Applications of AI for Anomaly Detection - [NVIDIA](#)
- Applications of AI for Predictive Maintenance - [NVIDIA](#)
- Accelerating Data Engineering Pipelines - [NVIDIA](#)
- Computer Vision for Industrial Inspection - [NVIDIA](#)
- Fundamentals of Accelerated Data Science - [NVIDIA](#)
- Fundamentals of Deep Learning - [NVIDIA](#)
- Information Technology Specialist in Python - Certiport
- Information Technology Specialist in Java - Certiport
